

EXAMINERS TIPS - E&W Foundation Certificate & Diploma Students

Tips for the Administration of Trusts Module

- Candidates should practice as many exam questions as possible, time allocation being a particular focus – time during the exam should be divided as equally as possible between the 5 questions.
- Candidates should revise the most recent examiners' report – this will help them to understand how questions should be answered.
- Candidates should provide authority for their answers by quoting relevant legislation and cases – the statute pack provided in the examination will assist with this.
